

Racial Equity: The Groundwater Approach

building a practical understanding of structural racism

March 3, 2020

1:00 PM - 4:00 PM

*Courthouse Center for the Arts
3481 Kingstown Rd. West Kingston*

We are pleased to partner with the Rhode Island Foundation to offer a free 3-hour introduction to racial equity. The Groundwater presentation, provided by the Racial Equity Institute, will use stories and data to present a perspective that racism is fundamentally structural in nature. By examining characteristics of modern-day racial inequity, the presentation introduces participants to an analysis that many find immediately helpful and relevant to their work and the communities they serve.
